

APF THIXOTROPIC GEL **ionite**

Dharma Research manufactures fluoride treatments to meet all of your patient's special needs.

IONITE APF is a 60 second acidulated phosphate fluoride that contains **1.23% fluoride ion**.

It is a very reliable thixotropic gel as it flows easily during tray placement and its thick pudding consistency minimizes the risk of ingestion and assures maximum contact with all tooth surfaces.

Low PH that provides maximum fluoride uptake in 60 seconds.

Material consistency offers a unique balance of viscosity and flow to ensure closer adherence to enamel and interproximal areas.

Specially formulated flavors to prevent bitter aftertaste and to give patients a pleasant taste.

Contains Xylitol, the ideal ingredient for caries prevention.

This ingredient is specific in its inhibition of the mutans streptococci group, bacteria that are significant contributors to tooth decay.

IONITE contains **Vitamin E** which provides beneficial antioxidant effects and

serves as a natural desensitizing agent.

GLUTEN-FREE

Made in USA

Available: APF 17 fl. oz. (500 ml) APF 8.5 fl. oz. (250 ml) APF 1 Gallon (3.8 L)
