### Section 4 – First Aid Measures

**First Aid for Eye** Immediately flush with water for 15 minutes, including under eyelids. Get medical help if discomfort persists.

**First Aid for Skin** Wash thoroughly with soap and water. Remove contaminated clothing. Get medical help if discomfort persists. People with pre-existing skin disorders or eye problems or impaired respiratory function may be more susceptible to the effects of the substance.

**First Aid for Ingestion** If greater than normal dose is swallowed, do not induce vomiting. Drink large quantity of water or milk. Seek medical attention.

**First Aid for Inhalation** Move to fresh air. If having breathing difficulty, give oxygen. Seek medical attention if discomfort persists.

### Section 5 – Fire Fighting Measures

N/A	N/A	N/A

**Method:**

**Extinguishing Media:** Water spray may be used to extinguish surrounding fire and cool exposed containers. Water spray may also reduce fumes and irritating gases.

**Fire Fighting Instructions:** General: Evacuate all personnel. Use self-contained breathing apparatus (SCBA) and full protective clothing to prevent exposure when the product is involved in a fire.

**Unusual Hazards:** Under fire conditions this product may emit toxic and / or irritating fumes and gases which aid combustion.

### Section 6 – Accidental Release Measures

**Spill or Release Procedures** Minor spills – Eliminate all ignition sources. Clean up immediately, and wear appropriate personal protective equipment and clothing to minimize exposure. Place inert absorbent material onto spillage. Collect the material and place into a suitable labeled container. Clean contaminated area with soap and water.

Major spills – Eliminate all ignition sources. Clear area of personnel. Restrict access to area. Wear appropriate personal protective equipment. Make sure area is well ventilated prior to cleanup. Dilute with water and place inert absorbent material onto spillage. Collect the material and place into a suitable labeled container. Mop / wipe area with soap and water. Do not allow spill to reach waterway, drains, and sewers.

See section 8 & section 12.

### Section 7 – Handling and Storage

**Handling** Limit all unnecessary personal contact; avoid accidental contact; wear appropriate PPE.

**Storage** Store in a cool, well ventilated area away from heat, sparks and flame. Keep containers closed when not in use. Keep in original container provided by manufacturer. Avoid sunlight. Store according to local legislation. Ideally, keep refrigerated.

**Explosion Hazard** None.

### Section 8 – Exposure Controls / Personal Protection

**Engineering Controls** General exhaust is adequate under normal operating conditions.

#### Personal Protective Equipment

**General** To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132), or European Standard EN166 be conducted before using this product.

**Eye/ Face Protection** Operator should wear safety glasses with side shields or chemical goggle. Ensure eye bath is on hand.

Skin Protection	Operator should use impermeable clothing to prevent ANY skin contact with this product, such as gloves, apron, boots, or cotton overalls.
Respiratory Protection	In case of insufficient ventilation (lack of engineering controls), wear suitable respiratory equipment.
